

First station Erection work on line 4A has started

Concourse Pier arm (CPC) work has been started for Gowniwada Station

Mumbai, 09 December, 2022:

Work on Metro line 4A which is the extension of metro line 4 is in progress between Kasarwadavali-Gaimukh. The first station erection work of the Concourse Pier arm (CPC) has started for Gowniwada Station grid number 2. The total 24 CPC castings have been done at the Malwani Casting yard, and 2 more CPCs have been transported to the site which is intended to be erected tonight.

As well as Teen Hath Naka Metro station is taking shape on Metro Line 4. All 101 nos of precast elements at concourse level are erected & 75% of platform slab work is completed. Construction of Teen Hath Naka is at the forefront of all Metro Line 4 stations. Approximately 70% of the civil work for this station has been completed (Length of Metro Line 4 is 32.3 km & Metro Line 4A- 2.7 km(Green Line)).

"We have expedited the work on all Metro lines in accordance with the catch-up plan. Overall physical progress of Metro Line- 4A and Metro Line - 4 is approx. 43%. Once all Metro lines are fully operational, we will achieve hassle free last mile connectivity in MMR" Shri S.V.R. Srinivas IAS, Hon. Metropolitan Commisioner, MMRDA.
